

What is claims

Claims (in insurance) are requests made by policyholders to an insurance company for compensation after a covered loss, damage, injury, or incident.

What is insurer

Ans:-> Insurance company who pays money to the insured.

Insurer = Insurance company (gives coverage)

What is insured

Ans:-> An insured is the person, business, or property that is protected under an insurance policy and is eligible to receive benefits for covered losses.

Insured = Person or thing covered by the insurance.

diff between insurer & insured

diff between insurer & insured

The insurer is the insurance company that provides coverage and pays claims, while the insured is the person or entity that purchases the policy and receives the coverage.

Reinsurance

Ans:-> Reinsurance is insurance purchased by an insurance company to protect itself from large losses.

EX: - 1. You buy insurance from an insurer.

2. The insurer buys reinsurance from a reinsurer.

Co-insurance

Ans:-> Co-insurance is an arrangement where two or more insurance companies jointly provide coverage and share the risk and claim payments in agreed proportions.

**Co-insurance** = Multiple insurers share the risk **together**

**Reinsurance** = One insurer transfers part of its risk to another insurer

Q. Endorsement

Ans:-> An endorsement is an insurance who allow you to change standard property casualty insurance. It is mainly used for any kind of additions, subtractions and other updates to the coverage.

EX:-> **Examples**

- Changing address
- Adding a new vehicle to an auto policy
- Removing a driver
- Increasing or decreasing coverage

## Deductible

- ➔ A deductible is the amount the insured is required to pay before the insurance company starts paying for a covered loss.
- ➔ Deductible = Your share of the claim.
- ➔ Repair cost = ₹50,000, Deductible = ₹10,000, You pay **₹10,000**, and the insurer pays the remaining **₹40,000** (subject to policy terms).

## Why Do We Have a Deductible?

- ➔ Deductibles help share risk between the insured and insurer, reduce small or unnecessary claims, and help keep insurance premiums lower.
- ➔ EX: If there were no deductible, someone might file a claim for every small scratch or minor repair. The deductible ensures the insured pays a small portion first.

## What is FONL

- ➔ **FNOL = First time the insurer is informed about a loss.**
- ➔ **FNOL** is the first report or notification made to an insurance company when a loss, accident, or damage occurs.
- ➔ EX: **Information Collected in FNOL**
- ➔ Policy number
- ➔ Date and time of incident
- ➔ Type of loss (accident, fire, theft, etc.)
- ➔ Description of what happened
- ➔ Contact details

## What is the risk Management in P&C?

- ➔ Risk Management = Finding risks and taking steps to reduce potential losses.

## WHAT IS SETTLEMENT

- ➔ Mutual understanding between insured and insurer.

## WHO IS ADJUSTER

- ➔ Is the person who pays high premium.

## WHAT IS PAID CLAIMS

- ➔ A Paid claims is a claims that has been settled and paid by an insurance company
- ➔ APPROVED, PROCESSED and PAID OUT

## WHAT IS UNPAID CLAIMS

- ➔ An unpaid claims a claim that has been: : FILED, 3. Not yet paid

## TYPE OF INSURANCE

- ➔ Life insurance Health insurance and .General insurance

## WHAT IS PREMIUM

- ➔ **Premium** is the amount of money paid by the insured to the insurance company to keep the insurance policy active.
- ➔ Premium = Insurance fee paid by the customer.
- Car insurance cost = ₹12,000 per year
- The ₹12,000 you pay is called the **premium**.

➔ WHAT IS POLICY RENEWAL PERIOD

➔ **Policy Renewal Period** is the time when an insurance policy expires and needs to be renewed to continue coverage.

➔ Most insurance policies are renewed: Every **6 months**, or

➔ ☐ Every **12 months (1 year)**

---

Tell me About yourself?

Ans:- Hi, my name is Bittu Kumar. I completed my Bachelor of Computer Applications (BCA) from Arcade Business College, Patna in 2023.

I have 2+ years of professional experience with EXL Service, where I currently work as a Process Associate supporting Liberty Mutual's US P&C Insurance portfolio. In my role, I handle FNOL-based claim requests, review claim documents, validate policy and loss information, and support claim processing activities.

Give me roles and responsibilities..

=====

I work as a Process Associate at EXL Service supporting Liberty Mutual's P&C insurance operations. My role involves handling FNOL-based claim requests received through the Phoenix application. I review claim documents, validate policy and loss details, identify whether the claim belongs to Auto, Property, or General Liability, and perform initial claim processing activities. After ensuring all information is accurate and complete, I forward the claim to the appropriate claims department or adjuster for further processing.

2. What are your day-to-day responsibilities?

Answer:

On a daily basis, I review claim requests received through FNOL, verify policy and claimant details, classify claims into Auto, Property, or Liability, ensure all required documents are available, process the request in Phoenix, and route it to the concerned claims department while maintaining SLA and quality standards.

6. What application did you use?

Answer:

We used Phoenix, an internal claims processing application, to receive, review, process, and route claim requests.

4. What types of claims did you handle?

Answer:

I worked primarily on P&C Insurance claims, including Auto Claims, Property Claims, and General Liability Claims.

5. How do you identify whether a claim belongs to Auto, Property, or Liability?

Answer:

I review the FNOL documents, loss description, policy information, and supporting documents. Based on the nature of the incident and coverage, I determine whether it falls under Auto, Property, or General Liability.

6. What application did you use?

Answer:

We used Phoenix, an internal claims processing application, to receive, review, process, and route claim requests.

7. How do you ensure quality?

Answer:

I carefully review all documents, validate policy and claimant information, follow SOPs and business guidelines, and ensure all mandatory fields and documents are completed before routing the claim.

8. How many claims do you process daily?

On average, I handled around 25–35 claim requests per day, depending on the complexity of the cases and queue volume, while maintaining SLA and quality standards.

The volume varied based on queue size and claim complexity, but on average I handled around 35 claim requests per day while maintaining SLA and quality standards.

Not exactly. The workload varied daily, but the average was around 35 claims per day. Some days it was lower and some days higher depending on the queue volume and claim complexity.

## Better Interview Numbers

### 9. AHT

If you say:

35 claims/day

Then a more realistic AHT is:

10–12 minutes per claim

Because:

$$35 \times 10 = 350 \text{ min} = 5.8 \text{ hrs}$$

$$35 \times 11 = 385 \text{ min} = 6.4 \text{ hrs}$$

$$35 \times 12 = 420 \text{ min} = 7 \text{ hrs}$$

This leaves time for:

Meetings

Breaks

Emails

System issues

Quality checks

Consistent Interview Answer

I typically handled around 35 claim requests per day with an average handling time of approximately 10–12 minutes per claim, while maintaining SLA and quality standards.

Q. "What was the SLA time?"

Ans:- The standard SLA for most of the cases I handled was 24 hours, and I ensured they were processed within the required timeline.

Q. How much time did you take per claim?"

On average, I spent around 10–12 minutes per claim, depending on the complexity and documentation involved.

SLA Time?

24 hours.

AHT?

Around 10–12 minutes per claim.

Claims per day?

Around 25–35 claims per day.

=====

HR Round

=====

2. Why are you looking for a job change?
3. Why do you want to join our company?
4. What do you know about our company?
5. What are your strengths?
6. What are your weaknesses?
7. Why should we hire you?
9. What is FNOL?
11. How many claims do you process daily?
12. What was your AHT?
13. How do you handle pressure?

14. Have you ever missed an SLA?

16. What motivates you?

18. Are you comfortable working in shifts?

19. Are you comfortable working under targets? #

20. Do you have any questions for us?

"What are your salary expectations?"

My current CTC is ₹2.65 LPA. Based on my experience and market standards, I am looking for a package in the range of ₹4.5 & I am open to discussion based on the role and growth opportunities.
